

Joshua M. Bercu

Associate

Joshua M. Bercu plays a leading role in the Firm's privacy and cybersecurity practice, advising clients on a variety of legal and policy issues related to data privacy, security, and consumer protection. His work includes developing and executing advocacy strategies on behalf of industry trade associations and companies before the FTC, FCC, and NTIA, including on emerging topics like the Internet of Things and enduring ones like the Telephone Consumer Protection Act (TCPA). Mr. Bercu also counsels established communications and technology companies and new upstarts on compliance with privacy, data security, and other consumer protection laws and regulations. His experience includes drafting privacy policies and terms of service, advising companies regarding the privacy implications of new products and services, and helping clients avoid legal pitfalls that could result from their marketing and outreach. Mr. Bercu also has been involved in drafting industry best practices and principles on various privacy matters.

In addition, Mr. Bercu works in the Firm's growing trademark practice, where he has counseled clients on the clearance of trademarks, and has assisted clients with the preparation, filing, and prosecution of federal trademark and service mark applications.

Prior to joining the firm in March 2011, Mr. Bercu served as a fellow with the House Energy & Commerce Committee focusing on telecommunications and technology issues. During law school, Mr. Bercu was a member of the Georgetown Journal of Law & Public Policy and served as the Vice President of Media and Communications Law for GEMALaw, a division of the Georgetown Entertainment & Media Alliance. His experience also includes internships with the FCC's Wireless and Enforcement Bureaus and a large law firm's Internet, Communications & Data Protection Group.
